

We would like to inform you that the Gerda Group has put in place measures to provide the best possible service to our customers whilst protecting and supporting the safety of our teams of staff; customer personnel; residents and their families & communities around us during this Covid-19 pandemic.

Operating in the specialist fire safety sector, we are continuing to work with customers to deliver products and services, whilst implementing measures for safer working and in line with the remit of current legislation for manufacturers.

We remain fully operational with business continuity plans and remote working systems in place with some external services limited subject to risk assessments and safeguarding. Communications based on our existing systems means that both internal departments and customers contacting Gerda will see no change. The need for face to face meetings is met through different but effective means of communication.

The Directors, management and staff of the Gerda Group wish you well in these unprecedented times during the COVID 19 pandemic.

Kind regards

Alastair Thompson  
CEO Gerda Group
